

**Job Title:** Analytical Chemist  
**Working Hours:** 37.5 hours per week  
**Working Days:** Monday - Friday  
**Location:** Livingston, Scotland.

Source Bioscience is an international analytical chemistry, stability storage, genetic analysis and diagnostics business serving the global pharmaceutical, research, and healthcare markets. We pride ourselves on maintaining a friendly working culture within an ambitious and growing organisation. We offer aspiring individuals the ideal environment and opportunity to succeed.

We are seeking applications from highly motivated candidates to work in our new purpose built analytical chemistry and stability storage laboratory in Livingston, Scotland. The successful candidates will have experience working in a GMP/GLP manufacturing or laboratory testing industry and will require an appropriate degree and/or a varying amount of experience.

All candidates should be able to show a commitment to a scientific career, have good interpersonal skills, meticulous record keeping and be conscientious and reliable in their approach to work.

**Please do not apply for these jobs unless you are able to demonstrate the essential criteria we are seeking within your CV.**

**If you wish to apply for this post, please forward a copy of your CV, including an email address and contact numbers plus your salary expectations and the documentation you hold to support your right to work in the UK to: recruitment @ sourcebioscience.com**

**Please be aware that Source BioScience operates a paper-free recruitment process and successful applicants will be contacted via email. If you have not been contacted within 6 weeks of applying for a post, please assume your application has not been successful.**
