

Application Development and Support Analyst – Nottingham (37.5 Hours per week)

Source Bioscience is an international genetic analysis, diagnostics and stability storage business serving the global research and healthcare markets. We pride ourselves on a maintaining a friendly working culture that gives driven individuals the environment to succeed in an ever-evolving and developing organisation.

Our employees are committed, dedicated and thrive on the day-to-day challenges that working in a fast-paced, corporate environment brings.

Along with these qualities we are also looking for the following essential criteria for this position.

- The ability to write and troubleshoot T-SQL code, stored procedures, functions, tables, views, triggers, constraints.
- Excellent C# Skills
- Solid .net experience. (mainly windows, but web experience needed also)
- Good web development/HTML
- Strong grasp of software design patterns and effective development methodologies
- Knowledge of Source control – TFS/Source safe.
- Solid interpersonal skills; communicative, confident, not afraid to push back
- Demonstrated experience writing and supporting commercial-grade software applications with a preference for thick client apps over web-based apps
- Deep understanding of multi-threading and real-time software architectures
- Driven to produce software of the highest quality through self-discipline, clear and engaged communication and attention to detail
- Demonstrated experience in the design and development of business and analytical applications for both company and client use.

In return we are able to offer the following benefits package; 33 days annual leave (inc. Bank Holidays) plus an annual option to buy and sell up to 5 days annual leave. Subsidised gym membership at the Belfry Hotel (after 3 months), Childcare Voucher Scheme, Cycle to Work Scheme, subsidised Scottish Widows private pension plan.

Please do not apply for this job unless you are fully able to demonstrate within your CV, the essential criteria we are seeking for this position.

If you wish to apply for this post, please forward a covering letter ,a copy of your CV, including an email address and contact numbers plus your salary expectations and the documentation you hold to support your right to work in the UK to: recruitment @ sourcebioscience.com

Please be aware that Source BioScience operates a paper-free recruitment process and successful applicants will be contacted via email. If you have not been contacted

within 6 weeks of applying for a post, please assume your application has not been successful.
